Thanks Sean.

Clancy was my alternate. We need to send another manager if not you. It's too much for Elena. It is a division wide responsibility.

Honestly, I wasn't focused on it until very recently. And I also thought it was going to be very difficult last minute travel because of the hualapai location.

I will attend the next one down near San Diego in conjunction with the conference. But we will need to plan it out also. There will probably more of us for that one. I think it's October but I'm not certain.

Hi Enrique, it looks like it would've been useful for me to attend. I opted out based on limited Navajo-related topics but I wasn't thinking about broader tribal matters. - Sean

Thanks for all the e-mails.

However, unfortunate that no superfund manager at the RTOC.

Enrique,

Thank you for your quick response. I am glad to hear that there is a meeting scheduled for today between you and Tribal representatives. Instead of having a call prior to that meeting, I would like to schedule a call with you early next week. Today I am already scheduled to be in the field conducting water samples. My desire in being involved with this issue is to provide for strengthened relationships. I am more interested in seeing this accomplished without my involvement but will engage to move this issue to a better place than has been relayed to me. I hope the meeting goes well today.

Alan

Alan:

Just wanted to pass along my 5/26 email to Chairman Thom with a cc to Ginny. My staff continues to try to arrange this call.

Also, we, including me, are having a call tomorrow Friday with the Chair, Ginny, tribal counsel and tribal consultant to review several issues they have raised with regard to the site and the deferral process.

Hello Chair Thom:

Thank you for your personal participation in the Roundtable discussion earlier this week. I know you have a very busy portfolio and I appreciate your attention to the issues related to the Anaconda site.

As a follow up to the Roundtable meeting, I understand we are arranging a conference call with Ginny, YPT counsel, and our legal and technical team to clarify some issues that were raised at the meeting. I plan to participate on that call.

In addition, I would like to have a short phone call with you at your earliest convenience to get your perspective on the outcome of the Roundtable and the next steps. In particular, I want to make sure that we are doing everything we can, in terms of our communication and coordination, to support YPT during the deferral evaluation process. We appreciate Ginny's active engagement among her many commitments for YPT.

I will ask my assistant, Christina Cheng, to work with yours to identify at least a 15 minute window of time. Of course, please feel free to call me anytime at my numbers below.

Sincerely,

Enrique Manzanilla

Subject: FW: Updated Deferral Process Evaluation Schedule

Hello Ms. Hatch,

It was good to see you at the last RTOC. Thank you for coordinating with my staff regarding the NPL Deferral consultation. I understand that you would like to combine EPA's consultation with NDEP's consultation (draft scheduled attached), and EPA is happy to do that. I hope that you have been able to connect with Jeff Collins at NDEP to plan the specific consultation dates. Please let Dante know so that we can plan accordingly for our participation.

We understand from NDEP that they will soon provide us with a draft of the Framework Agreement between NDEP and ARC. When we all receive it, EPA would be happy to have Dante or Dave review it with you if you would like.

In addition, EPA would like to offer to have our Superfund Director, Enrique Manzanilla, touch base with Chairman Thom regularly throughout this process to ensure that the Tribe knows that it has EPA's undivided attention in this matter. Please let Dante or I know if you would like to do this.

Thank you again for working with EPA on these issues. Stay in touch, and we look forward to continuing to work closely with you throughout this process.

Sincerely,

Angeles Herrera

Assistant Director

Subject: Updated Deferral Process Evaluation Schedule

Good morning. I have attached two updated .pdf versions of the deferral process evaluation schedule. One in 8.5X11 format and one in 11X17 format. The new additions are color coded. As before, we have done our best to accommodate individual stakeholder schedules, but we will remain flexible if some of these scheduled weeks for draft document review and meetings need to be adjusted.

Most of you received a doodle poll this morning to determine the best time for a stakeholder roundtable meeting in mid-May. Please complete the poll by May 9th, so we can work on a meeting location in Yerington. If there are other representatives from your organization that you feel should participate in the poll, please forward it onto them. The roundtable meeting was suggested by the Walker River Paiute Tribe as an opportunity to hear other stakeholder questions and/or concerns about the proposed deferral path and to formulate a collective understanding of the goals and objectives of the deferral process with input from the involved agencies (NDEP, EPA and BLM). We feel this is a great idea.

We ask that you try to keep your stakeholder representatives limited to 3-4 people. NDEP will generate a table of questions and concerns that we have received to date and distribute that table to the stakeholders prior to the meeting. Each stakeholder will have the opportunity to pose questions or concerns for collaborative and constructive input from the group. This roundtable meeting will be fairly informal and the agencies will be there to keep the meeting moving in a positive

direction with potentially unresolved issues being tabled until we can meet again as a group in June or individually before that time. Please let me know if you have any questions or concerns about the proposed roundtable meeting...thanks.
